TARIQ KHAN

Full-Stack Developer | AI Application Developer

Islamabad, Pakistan | ta5549611@gmail.com | +93 315 7316646

TECHNICAL SKILLS

Frontend Development

- Next.js, React, TypeScript
- JavaScript, Tailwind CSS
- Responsive Web Design

Backend Development

- Python, FastAPI
- REST APIs, API Integration

Databases & Backend Services

- PostgreSQL, Supabase
- Database Design

Artificial Intelligence

- Agentic AI, LangGraph
- Retrieval-Augmented Generation (RAG)
- ChromaDB, OCR, Pydantic
- Structured Outputs, Streamlit

Development Tools

- Git, GitHub
- Vitest, Software Testing

KEY PROJECTS

1. **Luxora Commerce**
   Multi-Vendor E-Commerce Platform
2. **IT Support Agent**
   AI-Powered Support System
3. **Food Agent App**
   AI Nutrition Analysis
4. **BROS Dental Clinic**
   Website Development
5. **CreativeFlow AI**
   AI-Powered Content Platform
6. **Real Estate Web with Agent — Riyadh**
   Property Browsing + AI Assistant
7. **Khurram Gold Elegance**
   Jewelry Website
8. **Cloud Sentinel**
   JavaScript Project

PROFESSIONAL SUMMARY

Full-Stack Developer and AI Application Developer with hands-on project experience in building responsive web applications, AI-powered systems, and data-driven solutions. Proficient in Next.js, React, TypeScript, Python, FastAPI, PostgreSQL, and Supabase. Experienced in developing AI workflows using Retrieval-Augmented Generation (RAG), agentic systems, OCR, structured outputs, and API integrations. Focused on building scalable, user-centric applications with clean architecture, maintainable code, and practical functionality.

PROJECTS

1. **Luxora Commerce** — Multi-Vendor E-Commerce Platform
   - Designed a premium e-commerce platform concept featuring vendor onboarding, product catalog management, inventory tracking, shopping cart, multi-vendor checkout, and order management.
2. **IT Support Agent** — AI-Powered Support System
   - Developed an AI support system concept featuring multi-agent request routing, RAG-based knowledge retrieval, OCR-powered screenshot analysis, and an administrative dashboard.
3. **Food Agent App** — AI Nutrition Analysis
   - Built an agentic AI nutrition analysis application using structured JSON outputs, Pydantic data models, and a Streamlit interface.
4. **BROS Dental Clinic** — Website Development
   - Developed a responsive dental clinic website concept showcasing services, doctors, appointment booking, and contact information.
5. **CreativeFlow AI** — AI-Powered Content Platform
   - Worked on an AI application project focused on streamlining digital content creation workflows.
6. **Real Estate Web with Agent** — Riyadh
   - Developed a real estate web project concept combining property browsing with an AI-agent assistance experience.
7. **Khurram Gold Elegance** — Jewelry Website
   - Created a luxury-oriented jewelry website concept focused on brand presentation and product showcasing.
8. **Cloud Sentinel** — JavaScript Project
   - Worked on a JavaScript project in the cloud and security domain.
